

# Brett D. Jameson, PhD

Research Fellow  
Bermuda Institute of Ocean Sciences  
[brett.jameson@bios.asu.edu](mailto:brett.jameson@bios.asu.edu)

## EDUCATION

---

- Ph.D. in Biological Oceanography 2023  
University of Victoria, Victoria, BC, Canada  
*Dissertation: "The Microbial Ecology of Nitrous Oxide Production in Marine Environments: Linking Community Dynamics to Ecosystem Processes."*  
*Advisor: Dr S. Kim Juniper*
- B.Sc (Hons.) in Marine Biology (GPA – 4.2 / 4.3) 2016  
Dalhousie University, Halifax, NS, Canada  
*Honours thesis: "The Effects of Ocean Acidification and Increased CO<sub>2</sub> Partial Pressure on Coral Primary Productivity in a Flume Mesocosm."*  
*Advisor: Dr. Alan Pinder*

## ACADEMIC POSITIONS

---

- Research Fellow** 2026 – present  
Marine Microbial Systems Lab, BIOS-SCOPE Research Group  
Bermuda Institute of Ocean Sciences (ASU-BIOS)  
Arizona State University
- Postdoctoral Scientist** 2023 – 2026  
Marine Benthic Ecology and Ecophysiology Lab  
Bermuda Institute of Ocean Sciences (ASU-BIOS)  
Arizona State University
- PhD Candidate** 2017 – 2023  
Microbial Ecology Lab, School of Earth and Ocean Sciences  
University of Victoria
- Research Assistant** 2016  
Marine Microbiology Lab  
Bermuda Institute of Ocean Sciences
- Canadian Associates of BIOS Summer Research Associate** 2015  
Coral Reef Ecology and Optics Lab  
Bermuda Institute of Ocean Sciences

## RESEARCH GRANTS & FUNDING

---

- Cawthorn Award** – (\$15,000 USD) 2025  
ASU-BIOS, Awarded for design & pilot of new summer microbial ecology course
- University of Victoria Fellowship** – (\$31,500 CAD) 2018 – 2022  
University of Victoria, Faculty of Graduate studies
- NSERC Canadian Graduate Scholarships – CGS-M** – (\$17,500 CAD) 2017 – 2017  
National Sciences and Engineering Research Council
- CABIOS Summer Research Grant** – (\$25,000 CAD) 2015 / 2020  
Canadian Associates of the Bermuda Institute of Ocean Sciences
-

## HONOURS & AWARDS

---

|                                                                                                                                                                                                |             |

## PEER - REVIEWED PUBLICATIONS

---

Goodbody-Gringley, G., **Jameson, B.D.**, Johnson, J., Davis, H., Chequer, A., Doherty, M., Mass, T. (2026). Fate tracking of *Acropora cervicornis* colonies post-restorative out-planting reveals genotype-specific responses to marine heatwaves. *Coral Reefs*. <https://doi.org/10.1007/s00338-026-02863-6>.

**Jameson, B.D.**, Lopez, M.L.D, Bonderud, M., Stevens, C.J., Juniper, S.K., Helbing, C.C., Grundle, D.S. (2024). High abundances and expression levels of atypical, non-denitrifier N<sub>2</sub>O reductases drive strong microbial N<sub>2</sub>O consumption rates in a minimally impacted mangrove stand. *Journal of Geophysical Research: Biogeosciences*, e2023JG007805. <https://doi.org/10.1029/2023JG007805>.

**Jameson, B.D.**, Murdock, S.A., Ji, Q., Stevens, C.J., Grundle, D.S., and Juniper, S.K. (2023). Network analysis of 16S rRNA sequences suggest microbial keystone taxa contribute to marine N<sub>2</sub>O cycling. *Communications Biology* 6:212. <https://doi.org/10.1038/s42003-023-04597-5>.

Juniper, F.M.A., **Jameson, B.D.**, Juniper, S.K., and Bell, L.S. (2021). Can whale fall studies inform human forensics? *Science and Justice* 61(5), 459-466. <https://doi.org/10.1016/j.scijus.2021.06.001>.

**Jameson, B.D.**, Berg, P., Grundle, D.S., Stevens, C.J., and Juniper, S.K. (2021). Continental margin sediments underlying the NE Pacific oxygen minimum zone are a source of nitrous oxide to the water column. *Limnology and Oceanography Letters* 6(2), 68-76. <https://doi.org/10.1002/lol2.10174>.

Qixing, Ji, **Jameson, B.D.**, Juniper, S.K., and Grundle, D.S. (2020). Temporal and vertical oxygen gradients modulate nitrous oxide production in a seasonally anoxic fjord: Saanich Inlet, B.C. *Journal of Geophysical Research: Biogeosciences*, e2020JG005631. <https://doi.org/10.1029/2020JG005631>.

## MANUSCRIPTS IN PREP OR UNDER REVIEW

---

**Jameson, B.D.**, Moran, T., Sawall, Y., Grundle, D.S. (*In Review*). Hurricane disturbance alters surface sediment redox chemistry and stimulates N<sub>2</sub>O consumption in a subtropical mangrove stand. *Geophysical Research Letters*. Submitted October 2025. [10 pages]

Murdock, S., Bristow, L., Ji, Q., Woo, S., **Jameson, B.D.**, Konstantinidis, K.T., Stewart, F.J., and Grundle, D.S. (*In Review*). Fortuitous sampling across an oxygen renewal event captures a hot moment of marine nitrous oxide turnover. *Nature Communications*. Submitted January 2026. [18 pages]

**Jameson, B.D.**, Carbonne, C., de Putron, S., Sawall, Y. (*In prep*). Thermal stress disrupts parent-to-offspring microbiome transmission in *Porites astreoides*. [Manuscript 50% complete]

Hamme, R.C., **Jameson, B.D.**, Raftery, E., Stevens, C.J., Juniper, S.K., and Casciotti, K. (*In prep*). Dynamic flushing leads to differential reaction rates and microbial community successional patterns in seasonally anoxic Saanich Inlet. [Manuscript 75% complete].

## TECHNICAL REPORTS

---

Norgard, T., Du Preez, C., Yakgujanaas, J., Clarkson, M., Chaves, L., Rangeley, R., Ciruolo, A., Gale K.S.P., Haggarty, D., Pegg, J., McNicoll, C., Du Preez, S., **Jameson, B.D.**, Leith, M., Juniper, S.K., Elliot, L., St. Germain, C., Whyte, J., Fundis, A., & Kane, R. (2019) Northeast pacific seamounts expedition: exploring Canada's seamounts. *Oceanography* 32 (1), supplement, 150 pp.

## PRESENTATIONS

---

Fields, F.\*, Ashey, J., **Jameson, B.D.**, Carbonne, C., Putnam, H., Goodbody, G., Sawall, Y. and De-Putron, S. Assessing physiological and molecular plasticity in the early stages of *Porites astreoides*. *Poster*. 2024 Society for Integrative and Comparative Biology Annual Meeting, Boston, MA, USA. International conference, 2–6 September 2024.

**Jameson, B.D.\***, Lopez, M.L.D., Bonderud, M., Stevens, C.J., Juniper, S.K., Helbing, C.C., & Grundle, D. The magnitude and direction of N<sub>2</sub>O flux from marine sediments is linked to the abundance and gene expression levels of non-denitrifier N<sub>2</sub>O reductases (nosZII). *Poster*. Proceedings of the 2024 Ocean Sciences Meeting, New Orleans, LA, USA. International conference, 18-23 February 2024.

Brown, J.\*, Cooper, K., **Jameson, B.D.**, Sawall, Y., de Putron, S. Response and resilience of three Bermuda coral species to a simulated thermal stress event. *Poster*. Proceedings of the 2024 Ocean Sciences Meeting, New Orleans, LA, USA. International conference, 18-23 February 2024.

Bristow, L.A.\*, Murdock, S., Crandall, J. **Jameson, B.D.**, Grundle, D., Thamdrup, B., Stewart, F.J. Distribution and kinetics of N<sub>2</sub>O consumption in a seasonally anoxic fjord. *Presentation*. ASLO Aquatic Sciences Meeting 2023, Palma de Mallorca, Spain. International conference, 04 -09 June, 2023.

Hamme, R.C.\*, Raftery, E., **Jameson, B.D.**, Casciotti, Stevens, C.J., S., Juniper, S.K.. Dynamic flushing leads to differential reaction rates in seasonally anoxic Saanich Inlet. *Presentation*. Canadian Meteorological & Oceanographic Society Congress 2023, St. John's, NL. International conference, 28 May – 01 June, 2023.

**Jameson, B.D.\***, Murdock, S.M., Ji, Q., Stevens, C.J., Grundle, D.S., & Juniper, S.K. Linking the niche-partitioning of microbial community networks to N<sub>2</sub>O cycling in a dynamic coastal oxygen minimum zone. *Presentation*. Proceedings of the 2022 Ocean Sciences Meeting, Honolulu, HI. International conference, 24 February – 04 March, 2022.

**Jameson, B.D.\***, Juniper, F., Juniper, S.K., Smith, C. R., & L.S. Bell. Can whale-fall studies inform human forensics? *Poster*. The 16th Deep-Sea Biology Symposium, Brest, France. International conference, 12 – 17 September, 2021.

**Jameson, B.D.\***, Berg, P., Grundle, D.S., Stevens, C.J., and Juniper, S.K. Continental margin sediments underlying the NE Pacific oxygen minimum zone are a source of nitrous oxide to the water column. *Presentation*. Proceedings of the 2020 Ocean Sciences Meeting, San Diego, CA. International conference, 16 – 21 February, 2020.

**Jameson, B.D.\***, Berg, P., Grundle, D.S., Stevens, C.J., and Juniper, S.K. Quantifying nitrous oxide fluxes in marine sediments using trace-level microsensors and applied numerical modelling. *Presentation* (1st Place Prize). SEOS Annual Grad Student Symposium, University of Victoria, Victoria, BC. Institutional conference, 15 November 2019.

**Jameson, B.D.\***, Gasbarro, R., Ciraolo, A., Archambault, P., Tunnicliffe, V., Juniper, S.K., and Snelgrove, P. Hypoxia and cumulative impacts on seafloor ecosystem function. *Presentation*. Canadian Healthy Oceans Network Annual Meeting. Ottawa, ON, Canada. 29 November – 01 December, 2018.

Byl, P.K.\*, **Jameson, B.D.**, Garley, R., Bates, B., and Parsons, R. Marine bacterioplankton succession and subsequent turnover within seasonally hypoxic waters of a subtropical sound; Devil's Hole, Bermuda. *Poster*. Proceedings of the 2018 Ocean Sciences Meeting, Portland, OR. 11 – 16 February, 2018.

**Jameson, B.D.\***, Gasbarro, R., Archambault, P., Tunnicliffe, V., Juniper, S.K., and Snelgrove, P. Hypoxia and cumulative impacts on seafloor ecosystem function. *Presentation*. Canadian Healthy Oceans Network Annual Meeting. Ottawa, ON, Canada. 1 – 4 May, 2017.

\* Denotes presenting author.

## CURRICULUM DEVELOPMENT

---

### Co-Developer & Instructor

2024 – present

Marine Microbial Ecology (BIOS Summer Course)

Bermuda Institute of Ocean Sciences (ASU-BIOS)

*Co-conceptualized, co-designed, and implemented a new summer course for ASU-BIOS. Awarded a pilot grant to design and test the course in 2025; successful pilot led to the inaugural full course offering in summer 2026.*

### Curriculum Designer & Instructor

2026

Biological Oceanography (BIOS Spring Semester Program)

Bermuda Institute of Ocean Sciences (ASU-BIOS)

*Designed all course materials, including lectures, field exercises, and laboratory exercises. Now serving as official course instructor.*

## MENTORSHIP & SUPERVISION
